

ASSEMBLY INSTRUCTION

H11297 FLOOR LAMP

No special tools are needed to install this floor lamp. Be sure to follow the steps in assembly instruction given. If you are unclear for how to proceed, consult a qualified electrician.

IMPORTANT SAFETY INSTRUCTION

- To prevent shock, only plug in unit after completed assembly.
- Do not exceed the maximum wattage rating as suggested.
- Before switch on the lamp, please follow the instruction step by step.
- Do not recommend to keep on the light exceed 12 hours.

Note : this floor lamp has a polarized plug(one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only in one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.

Never use with an extension cord unless plug can be fully inserted.

Do not modify or change from the original lamp polarized plug to fit to different outlet.

Step 1: Take out the floor lamp and shades from the package slowly. Place the floor lamp on smooth and level surface.

Step 2: Align and install G9 LED bulb to the socket, Do not exceed maximum 5 watt LED bulbs .

Step 3: Hold the spring and install the ball shade onto the holder. Repeat this step to other shades.

Step 4: Insert the polarized plug to the proper outlet. Switch to turn on or off the lamp.
